

Coaches, Parents, & Players:

I have been a high school, club, and college coach for the last 11 years and I have seen all types of coaches. Coach Malecki personifies what we love most about great coaches. He is dedicated, committed, passionate, and most of all he is about the kids. There are many club teams that claim to be about getting kids ready for their high school teams, but few follow through. Most club team's focus on making the individuals better individuals and that won't help them to be part of a high school varsity or collegiate athletic "program" at all. I met Coach Malecki a few years ago and he has always proven to be honest, straightforward, and extremely hard working. I sent 7 players to his program last off-season, and they all came back with better game knowledge and a greater proficiency in their fundamental techniques. Not only that, but they all enjoyed the game experience that they had playing for coaches who were serious about not just winning games, but teaching players the discipline they needed to be successful against stiff competition. Above all things Coach Malecki is about **supporting** the high school coaches. He is committed to making **our** players better players for **our** teams and providing all his resources to assist us in helping to get our local talent seen by college coaches and recruiters. I will continue to send my players to the Icemen year after year. I not only highly recommend Coach Malecki to you as a Coach, Parent, or Player; I highly encourage you to take advantage of an opportunity to truly improve your game. Sincerely,

Coach Miley
