

Temecula Valley High School Boys Basketball

Dear Basketball friends,

Basketball has moved far past the schoolhouse gates. It's popularity and intensity requires off season training and competition like never before. Coach Malecki, and the Icemen program, provides just what our athletes desire and what the Inland Empire basketball community needs. The beauty of this program is that Coach Malecki works closely with the high school coaches and team schedules to maximize the player's progress. He respects a player's high school commitments while taking advantage of every off-season moment to aide athletes in reaching their full potential. Coach Malecki has a high level knowledge of the game and cares enough get to know each student athlete personally. He designs his individual workouts, so each player's particular weaknesses can become strengths. He provides the best venues both locally and across the west coast for athletes to showcase their talents. Coach has contacts across the country and is willing to put himself on the line for players he believes can play at the next level. In the basketball world there is no better move you can make for your child's future than to get him involved in the Icemen program with Coach Todd Malecki.

Coach Rico Thompson
