Basketball Parents,

I have lived in the valley for the past eleven years. Outside of the local high school programs, players have had to travel many miles to get the much needed support in furthering their game outside of the season. Last year, the Murrieta and Temecula Valley's were very fortunate to have its first true high school AAU program. Coach Todd Malecki, highly respected from the South Bay, began the Icemen Basketball program run, out of Vista Murrieta High School.

The valley and surrounding communities are very fortunate to have a very qualified coach that supports its local high school coaches and basketball programs. I saw first hand last year the teaching of fundamental skills and team concepts that are taught. My sophomore son Joshua participated in the junior varsity workouts. I also sent several of my players including Kyle Perry a 6'9" center. Todd and the Icemen program really helped in the continued development of Kyle's game.

Although not every player is scholarship material, Todd has extensive contacts and resources to aid players wishing to get recruited. He is actively helping me in the recruiting process of Kyle Perry.

I give my highest recommendation to Coach Malecki and the Icemen Basketball program. Our area is very lucky he has made a home in the Valley.

Sincerely,

Timothy Sweeney Jr.
Head Basketball Coach
Martin Luther King High School
